A. BACKGROUND

The Group is principally engaged in the production, sale and distribution of cotton yarn, grey fabric and denim. Holding Company is principally engaged in the processing and sale of cotton, lint cotton, cotton seed oil, fabrics, cotton yarn, print cloth, retail and distribution of cloth.

Reference is made to the announcements of the Company dated 4 November 2010. The Old Supply of Excess Electricity Agreement will expire on 31 December 2013. The parties to the Old Supply of Excess Electricity Agreement have agreed to renew the term of the transaction and on 1 November 2013, the Company entered into the Supply of Excess Electricity Agreement with Holding Company for a period of three years commencing on 1 January 2014 to 31 December 2016 (both dates inclusive) pursuant to which the Group will supply excess electricity to Parent Group. Terms and conditions under the Supply of Excess Electricity Agreement are basically the same with the conditions under the Old Supply of Excess Electricity Agreement.

B. THE SUPPLY OF EXCESS ELECTRICITY AGREEMENT

1. Date

1 November 2013

2. Parties

(a) Company

(b) Holding Company

3. Transaction nature

Supply of electricity by the Group, which are in excess of the Group's actual electricity consumed, to Parent Group for a term commencing from 1 January 2014 and ending on 31 December 2016 (both dates inclusive).

4. Pricing basis

The price at which excess electricity is supplied to Parent Group by the Group shall be RMB0.50 per kWh (inclusive of VAT at the rate of 17%) or the market price (VAT inclusive) from time to time at which power plants in Shandong Province would sell electricity produced to the relevant power grid in Shandong Province, whichever is higher. The aforesaid market price (VAT inclusive) is made with reference to the average price (VAT inclusive) to be charged by power plants in Shandong Province for supply of electricity to the relevant local power grid according to information published on the website of Shandong Price Bureau. If any applicable mandatory price for the supply of electricity is prescribed by the PRC government, it would be adopted instead.

The Company, according to the fluctuation of the price of coal, may adjust the price at which excess electricity is supplied to Parent Group by the Company up to the price (VAT inclusive) at which the relevant power grid in Shandong Province would sell electricity to companies and no less than the price (VAT inclusive) at which the power plants in Shandong Province would sell electricity to (VAT inclusive) power grid in Shandong Province upon a 10 days' prior written notice to Holding Company.

The above price of RMB0.50 per kWh has been determined after arm's length negotiation between Holding Company and the Company, taking into account that RMB0.50 per kWh is a price which (i) is higher than the current average price at which power plants in Shandong Province sell electricity produced to the relevant power grid in Shandong Province; and (ii) is lower than the current electricity purchase price charged by the relevant power grid in Shandong Province.

5. Payment term

Holding Company shall pay for the electricity supplied in arrears on a monthly basis based on the actual amount of electricity supplied. The Company will provide the amount due on the last business day of each month and Holding Company shall make the payment by the 10th day of the following month.

6. Maximum aggregate annual value

Set out below is the maximum aggregate annual value for electricity (excluding VAT at the rate of 17%) for the excess electricity supplied under the Supply of Excess Electricity Agreement which is estimated to be payable by Holding Company to the Company for each of the three financial years ending 31 December 2016:

Financial year ending 31 December 2014 <i>(RMB)</i>	Financial year ending 31 December 2015 <i>(RMB)</i>	Financial year ending 31 December 2016 <i>(RMB)</i>
2,142,000,000	2,142,000,000	2,142,000,000 ¹

Note 1: The maximum transaction value for the excess electricity to be supplied by the Group to Parent Group was determined with reference to the electricity purchased by Parent Group from the Company for the year ending 31 December 2013, which was estimated to be approximately RMB1,947,000,000 (excluding VAT at the rate of 17%), with an expected growth rate of approximately 10% for the year ending 31 December 2014. The growth rate was determined with reference to the expected production growth of Parent Group in the downstream textile industry, including printing and dyeing and home textile products. As the production capacity of Parent Group is expected to be remained stable for the two years ending 31 December 2016, the maximum transaction annual values for the two years ending 31 December 2016 are the same with the one for the year ending 31 December 2014.

The historical figures for the electricity purchased by Parent Group from the Company are as follows:

Financial year ending 31 December 2011 <i>(RMB)</i>	Financial year ending 31 December 2012 <i>(RMB)</i>	Financial year ending 31 December 2013 <i>(RMB)</i>
1,436,000,000	1,883,000,000	1,947,000,000 ²

Note 2: the transaction value for 2013 was calculated based on the actual average monthly transaction value for the nine months ended 30 September 2013 by multiplying 12.

C. REASONS FOR AND BENEFITS OF THE EXCESS ELECTRICITY SUPPLY TRANSACTION

The excess electricity to be purchased by Parent Group under the Supply of Excess Electricity Agreement would (i) optimize the utilization of the power plant assets and thus improving operation efficiency and achieving economies of scale of the Group (by reducing the fixed costs of electricity generation); and (ii) allow the Group to receive an additional stream of income and thus enhancing the profits of the Group.

Based on the above, the Board believes that the Excess Electricity Supply Transaction would be conducive to enhancing the operating efficiency and competitiveness of the Group and would result in cost savings and enhancement of its profitability of the Group.

The terms and conditions of the Excess Electricity Supply Transaction have been negotiated on an arm's length basis. The Board (excluding Mr. Zhang Shiping, Ms. Zhang Hongxia and Ms. Zhang Yanhong, who abstained from voting on the Board resolution of the Company in respect of the Excess Electricity Supply Transaction due to their equity interests in Holding Company and the members of the Independent Board Committee, the opinion of which, after taking into account of the advice from the Independent Financial Adviser, will be included in the circular to be despatched to the shareholders of the Company) is of the view that the Supply of Excess Electricity Agreement and the Excess Electricity Supply Transaction have been entered into in the ordinary and usual course of business of the Group, that they are on normal commercial terms, and that the terms, as well as the Annual Caps applicable thereto, are fair and reasonable and are in the interests of the Company and its shareholders as a whole.
